

TECHNICAL SPECIFICATION SHEET

FEP Insulated Lead Wire

UP TO 200 DEG C

Single halogen-free cable

Temperature-resistant

Cold-resistant

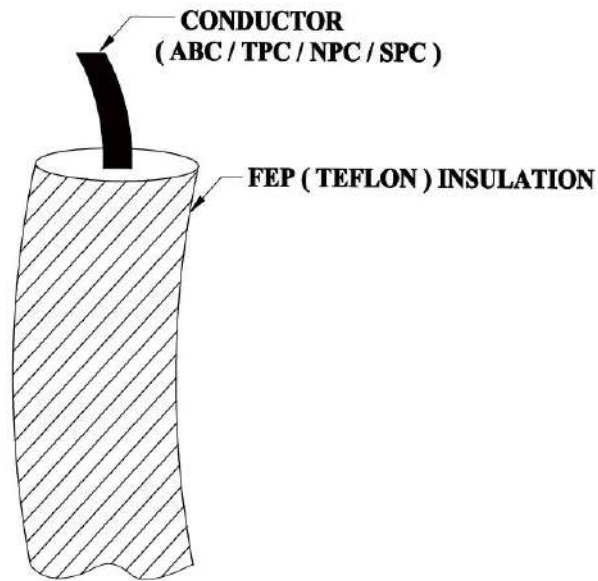

Technical Detail

Design Standard	: JSS 51034, IS 8130
Conductor	: Annealed Bare Copper / Nickel Plated Copper / Silver Plated Copper
Conductor Type	: Solid wire / Flexible
No of Core	: Single Core
Conductor Size(Sqmm)	: As per customer requirements.
Insulation	: Extruded FEP (Teflon) Insulation.
Core Identification	: As per customer requirements.
Cable Temp.Range	: Up to 200 Deg C
Voltage Grade	: 600/1100V

Special Features

Max. Temp. Up to 200°C
Uniform Diameter
Smooth Surface
Strong Bonding Between Insulation & Core Conductor
Low Dielectric Constant
Easy Stripping
Can be Produce in Continuous Length

TECHNICAL (GA) DRAWING

SINGLE CORE CABLE
