GENERAL SPECIFICATION SHEET

VFG-FG-SS BRAIDING

UP TO 550 DEG C

Technical Detail

Design Standard : As per JSS 51037, IS 8130

Conductor : Annealed Bare Copper / Tinned Plated Copper /

Nickel Plated Copper / Silver Plated Copper

Conductor Size : Variant as per customer specifications

Conductor TypeNo of CoreSolid wire / FlexibleSingle Core / Multi Core

Core Insulation: Fiber Glass Insulation With High Temp. Varnish

Core Formation : Twisted / Flat

Outer Sheath Insulation : Fiber Glass Braiding

Overall Armouring : Stainless Steel Wire Braided / Armouring

Core ColourOuter Sheath Colour: As per Customer specification.: As per Customer specification.

Cable Temp. Range : Up to 550 Deg C **Voltage Grade** : Up to 1100 V

Special Features

Max. Temp. upto 550°C
Excellent Physical Properties
Excellent Di-Electric Constant
High Thermal Endurance
Excellent Heat Resistant
Good Thermal Stability
Flame Retardant

Good Moisture, Chemical Abrasion Resistance
